

**Save Our Hospital Services
Devon**

Can you help us find the **FACTS** about *Care Closer to Home*?

If at some point since 2013 you have received nursing/medical care or personal care at home after spending time in a Devon hospital, would you be willing to share your experiences by completing our *Care Closer to Home* Survey?

You can complete the survey either as a patient or as the spouse, partner, relative or friend of a patient.

- To complete the survey online, visit **surveys.sohs.org.uk**

If you need assistance or advice on completing the survey, contact Ray Ashman (local Combe Martin resident) by calling 01271 883648 or e-mailing ray.ashman77@gmail.com.

We are extremely grateful for your cooperation and support.

It is not our intention to scrutinise NHS employees, care workers or any other individuals. Our only interest is in the *Care Closer to Home* model itself, the underlying processes and procedures, and, most importantly, hearing from local people who have had first-hand experience of how the model is working.
